2018-2019 CNSCA President's Message

From Joe Schemenauer

Welcome to another year of sporting clays in Canada. Some of you may not know me, so I will provide a brief introduction. Heather and I have been married for over 45 years; we were blessed with 3 sons and so far 3 grandchildren. I farmed in the Lake Lenore, SK area and retired in the fall of 2015. Over the years I have served on the Board of Directors of numerous local, provincial and national organizations. In 2003 I was awarded the Queens Golden Jubilee Medal for volunteerism and also received The Gordon Lund Memorial Award as Saskatchewan's Most Outstanding Conservationist.

I was introduced to sporting clays in 2012 by Ed Bowman. Ed and I are both very lucky and proud to share our little granddaughter McKenna. I have met a lot of very nice people who are involved with sporting clays and have observed that shooters have a wide variety of expectations when shooting sporting clays. All shooters would like to do their best but by far the vast majority are there to have fun and enjoy the fellowship; then there is a small group who would like to win, and finally a very small group who expect to win. As CNSCA President, I try to consider all of those interests.

We now live in Las Vegas for the winter months and I am an NSCA member. In the last several years there has been some discussion about CNSCA/NSCA. Late last year, I contacted NSCA to gather some information. It is apparent that there are major differences in the two organizations especially in the areas of scoring systems and organizational structure. The CNSCA has no paid staff or facilities. The NSCA has 44 paid staff as well as facilities. It has been my experience with the organizations I have been involved with that personnel and facilities are usually some of the largest expenses incurred by the organization.

My discussion with the NSCA representative was respectful and cordial

but I came away with the impression that the NSCA is happy to collect target fees here in Canada, but they really don't want much to do with us. I also raised the issue of CNSCA hosting shoots in the USA and was clearly told that the NSCA views the CNSCA as competition. I found that comment perplexing as I thought we are both trying to promote sporting clays.

It is important for all CNSCA members to remember that the CNSCA has allocated over \$40,000 to provincial associations since we created our policy of sending half of our target fees and membership renewals downstream. I ask all of you to consider this fact when you choose who to support in future shoots. As the CNSCA enters its 9th year, I am convinced that our organization is the right choice for Canadian shooters.

I would like to thank the current CNSCA Board of Directors for your hard work and support. Pierre Dubois had been on our Board since the CNSCA was formed and retired in late 2018. He was always a very strong advocate for sporting clays in Canada. I would especially like to thank Bill Campbell for all the work he has done and continues to do for the CNSCA. We have committees working on updating our policies, and other establishing standards for 5 Stand events. Your Board has approved several new initiatives. The Bring a Buddy program will be in place for 2019, and the Board approved financial support for sending a Canadian FITASC team to the 2020 World FITASC Championship in Mississippi. You will be hearing more about these new initiatives in the coming months.

In closing, I would like to thank the event sponsors and CNSCA sponsors. Your support is very much appreciated. I would also like to thank those who hosted events, and as well as the volunteers who helped at various events.

Best Wishes for 2019, have fun, and hope to see you at a shoot.

Joe Schemenauer, CNSCA President.

2018-2019 ASCA President's Message

from Scott Iverson

Family, the definition states: A group of people related by either birth, affinity (marriage), or co-residence.

Family means so much more in today's society. It extends beyond the typical definition. I can't wait to see my extended family again in 2019. I look forward to building on those relationships and making new ones. This community of shooters is one to be emulated.

For 2019 I have a few goals:

- **Make new friends**
- **Grow our sport**
- **Have fun shooting**
- **Bring new people to the sport**

How does one go about doing all of this? The same way a couple special people brought me into this sport. Two people I happily call Family today. Bill Bramely and Cory Tuffs. The love of the sport we feel and wearing that openly with everyone around us. When others are happy, enthusiastic and vibrant, many times that drives similar feelings to those around us.

So, in 2019 I want to get the jitters, like I do at the start of every shoot. And I want someone else to learn how it feels to be so excited your shaking. 2019 is going to be a great year.

I would like to personally thank every shooter, target setter, club manager and all supporters of the ASCA. You are in a community and family that have built this sport strong in Alberta. As we travel to other provinces and countries be proud of where you come from and what you have achieved. Every place you go bring sportsmanship, respect and passion with you. With these our community and family will continue to grow in a positive light.

Lastly, I want to thank each one of you for promoting our sport in a positive fashion. The more shooting sports are identified to the uninformed public through growth of our youth and safe handling of firearms within our communities, the stronger our abilities as responsible gun owners become. Thank you as well, to all the current executive in their tireless efforts and hours of relentless time to keep this Association functioning, Shawn Bosse, Troy Fitt, Bruce Virostek, Ann Neil, Carl Brewster, Aric Alexander and Steve Dyck. In 2018 treat yourself with happy surprises and fulfilling challenges. May it be loud dusty and smell of that perfect aroma, Burnt Powder.

2018-2019 BCSCA President's Message

From Ron Nemecek

With 2018 behind us we are hoping for a more relaxing year ahead. We certainly had another year of smoke and fires.

We started off with a GREAT shoot in Vancouver with the WEST COAST 400. Awesome weather, great targets and good friends.

For all the "RABBIT LOVERS" we had the ELMER FUDD in Radium. Always a blast! Be sure to register early for the "FUDD" shoot.

The KICKING HORSE KLASSIC was in Golden on the May long weekend. Everyone went home with a sunburn! The May long weekend is booked for this year's KICKING HORSE KLASSIC.

The following weekend was the BUSTIN CLAYS in Mackenzie. Great job guys!

The BC CHALLENGE was a full house in Kamloops. Looking for a repeat this year.

Those who attended the GOLDFATHER CHALLENGE in Radium last year all agreed they'll be back this year!

Looking forward into the 2019 Shooting year, Kamloops will be hosting the BC PROVINCIALS and Radium will be hosting the CANADIAN NATIONALS in August. (A Great Event is being planned).

As you plan the shooting events you will want to attend, please PRE-REGISTER for ALL EVENTS as a lot of the planning depends on your early responses.

I want to thank the BCSCA Board of Directors, past and present, for their contributions, we are all volunteers! Your efforts and input are greatly appreciated!

A BIG Thank You to the CNSCA for their continued support and contributions to Sporting Clays across Canada.

It is great to see training and promotions for the young and new shooters.

I wish all the SPORTING CLAY COMMUNITY a Great Year and a High Five to us All!

May your barrels never get cold!

RON - President - BCSCA

2018-2019 MSCA President's Message

from Scott Masniuk

Good Day Manitoba Shooters

With 2018, we saw great accomplishments for shooters, clubs & host sites, and the sport in general across Manitoba, 2019 will be no different. What we're doing is working, and you're a major part of that success, thank you shooters,

Season sponsors, Main Line Industries, Brock-White Construction Materials & BASF Canada, SCI Manitoba and RBC Wealth Management's Rogers & Associates, along with opportunities with Wild TV & the CCFR, rocketed sporting clays in Manitoba to the forefront. We couldn't be prouder of where it's all headed. Thank you to all for the help that made 2018 one to remember.

The 2019 calendar will build on these successes, with the season opening at BRGFA April 13th and the Provincial Championship September 21st/22nd at St. Hubertus bookending a 21-Event Season, we have lots to look forward to across the province.

Highlights from last season include the Bud Opie Quail Walk at St. Hubertus and the return of Timmer's Turkey Shoot @ BRGFA to finish off a great year. Both are back on the calendar along with Winnipeg Trap and Skeet Club's Shoot for the Cure mid-September.

Take a kid shooting,

Scott Masniuk, President
Manitoba Sporting Clays Association
manitobasportingclays@mymts.net

British Columbia Sporting Clays Association

Ron Nemecek, President, mobmech@persona.ca

Preliminary 2019 Registered Event Schedule

(Events subject to change, please consult CNSCA web site)

(See CNSCA calendar for non-registered events)

DEAR MEMBERS:

Help us stay in contact with you.

From time to time, the CNSCA needs to contact you to let you know that a shoot has been cancelled, a new shoot has been scheduled, or a shoot date has been changed. Regular mail takes too long to get the message out.

eMail is the easiest way to do this.

If you want to be kept up to date, please provide your eMail address to us by eMailing the CNSCA at:

memberships@cnsca.ca or by filling out the Member Update Form at www.cnsca.ca -

Thanks,

Hanley Sporting Grounds Ltd.

Canadian National Sporting Clays Association

Official Rules & Regulations

I - INTRODUCTION

A. The CANADIAN NATIONAL SPORTING CLAYS ASSOCIATION, (CNSCA) was formed in May of 2010 to promote sporting clays (English Sporting) in Canada and to develop the sport at all levels of participation. Since its inception, its sphere of interest now includes other non-traditional shotgun sports such as 5-Stand, Super Sporting and Parcours de Chasse (FITASC).

B. The CNSCA is a nonprofit organization (registered as a Society in Alberta) operated by and for its members. It is guided by a Board of Directors (also referred to herein as the "Executive") comprised of range owners, and both competitive and recreational shooters. Executive representation from all areas of Canada is encouraged. The Executive is elected at the Association's Annual General Meeting. Governance and administration of CNSCA is covered by its Bylaws which is a separate document and not contained herein.

C. The primary objective of the CNSCA is to promote the growth of sporting clays and non-traditional shotgun sports in a way that is beneficial to all who enjoy and participate in an atmosphere of healthy, safe competition and meaningful fellowship within its membership.

D. CNSCA has further established a consistent set of rules and guidelines (the "Rules") for conducting competitive sporting clays events. These Rules govern the shooting of registered sporting clays targets including the responsibilities and conduct of shooters and the duties of shoot management. The CNSCA has the responsibility for the formulation, regulation and enforcement of these sporting clays rules. These Rules are contained herein and are normally available on the CNSCA web site and in the annual CNSCA Shoot Book.

E. The CNSCA Executive reserves the right to make alterations in or amendments to these Rules whenever it deems it to be in the best interest of the CNSCA and its members. Members may submit proposals to change or alter the Rules at a General or Annual General Meeting by submitting to the CNSCA Secretary in writing, the specific proposed change(s) clearly defined, at least 10 days prior to the meeting.

II. DEFINITION OF TERMS

A. SHOOT PROMOTER

Individual(s) or entity that provides the facilities and organization of the competition either directly or through agreement with one or more third parties. Shoot Promoters may also act as Shoot Officials.

B. SHOOT OFFICIALS

Individual(s) or entity appointed or contracted by the Shoot Promoter and responsible for course layout, target selection, as well as testing of the course for safety.

C. CHIEF REFEREE

Person who may be appointed by the Shoot Promoter who is responsible for the general supervision over all other referees at a tournament, and who shall be present throughout the shoot competition. A Chief Referee is not normally required except perhaps at Championship Tournaments.

D. REFEREE

Person(s) of known ability who may be appointed by the Shoot Promoter to enforce the rules and keep score. Referees are not normally required except perhaps at Championship Tournaments.

E. SCORE KEEPER

A person(s) appointed by the Shoot Promoter to score and release targets, and failing such appointment, either: (i) a Referee if so appointed (ii) a person acceptable to the squad; or (iii) a squad member not currently in the shooting stand.

F. STATION

A shooting position from which one or more targets are attempted.

G. REPORT PAIR

Two sequential targets where the second target is launched at the sound of the gun firing at the first target. Targets may be launched from one or more traps.

In the case of 'Report Pairs', where the first target is good (fair) and the second target is not a good target for whatever reason, the first target shall be ruled as an established hit or miss and the shooter shall be presented with another pair of targets. The shooter must again attempt the first target but only the second target shall be scored on this presentation. In the case where a shooter does not fire on the first target, the first target shall be scored as lost and the shooter must still discharge their gun in order to launch the second target. The second target must be attempted following recovery from recoil and with only one shell left in the gun.

H. FOLLOWING PAIR

Two sequential targets where the second target is launched at the Shoot Official's discretion after the first target. Targets may be launched from one or more traps. The delay between the first and second target must be the same for each shooter. Two good targets must be presented for a score to be established.

I. SIMULTANEOUS PAIR (TRUE PAIR)

Two targets launched simultaneously. Targets may be launched from one or more traps. Two good targets must be presented for a score to be established.

J. REGISTERED SHOOT

A shoot where targets shot by CNSCA members must be registered. Affiliation with CNSCA is mandatory for the Shoot Promoter. Membership in CNSCA is mandatory for shooters who wish to have their scores registered and who wish to compete for prizes in both Class and Concurrents. At the discretion of the Shoot Promoter, non-CNSCA members may compete in a Hunter Class however such shooters are not eligible for prizes in Class or Concurrents and will not have their scores registered with CNSCA. Prizes may be awarded in Hunter Class at the discretion of the Shoot Promoter but prizing in Hunter Class shall not be such that incentivize new shooters to shoot Hunter Class rather than join the CNSCA. All participants in Hunter Class compete equally notwithstanding their actual skill level; i.e. Hunter Class shall not be divided into smaller sub-groups such as Lewis Classes.

K. NON-REGISTERED SHOOT OR FUN SHOOT

A shoot where none of the targets are CNSCA registered. Non-members may participate. There are no membership restrictions to receiving awards, purses or prizes. Organization of the shoot is at the discretion of the Shoot Promoter.

L. PROVINCIAL REGIONAL OR NATIONAL TOURNAMENT

A registered shoot held within a Province, a region or as a National event, sanctioned by the CNSCA as a Championship Tournament. CNSCA membership is mandatory. Comments in above Section V-J apply. See Sec. VII, F for further requirements. For regional tournaments, the following applies:

Western (Manitoba and West)

Eastern (Ontario and East)

M. AFFILIATED SHOOT PROMOTER

A Shoot Promoter which has requested affiliation with CNSCA and who has agreed to abide by CNSCA rules and to promote CNSCA objectives.

N. ACTIVE SHOOTER

An Active Shooter is a person who is a member of CNSCA and has paid his/her annual dues for the current year

III. SAFETY

A. GENERAL

1. SAFETY IS THE NUMBER ONE CONSIDERATION FOR ALL SPORTING CLAYS EVENTS & RANGES.
2. Safety is everyone's responsibility.
3. It is the shooter's responsibility to report any unsafe shooting condition immediately to Shoot Officials. The shoot will not proceed until the safety issue is corrected.
4. All persons, spectators, shooters, referees and trap personnel, must wear eye and ear protection on the course at a tournament sanctioned by the CNSCA.
5. All trap personnel in front of the line of fire must be out of sight with screen protection able to withstand the charge of shot at their distance from the shooting stand.
6. Shooters must have the direct permission of a Shoot Official to test fire any gun. Other than on such permitted test firings, guns will be discharged only in attempt at competition targets.

B. ALCOHOL & Drug POLICY

It is the policy of the CNSCA that no substance that could impair a shooter's judgment or physical ability shall be administered or consumed by any participant before or during a shoot. This includes alcohol, cannabis, recreational drugs and prescribed medicine. Any participant who consumes or administers a judgment or physical ability impairing substance prior to or during a shoot will be disqualified from further participation in the shoot including shoot offs to break ties.

IV - GENERAL INFORMATION

A. MEMBERSHIP

1. Currently, CNSCA assesses a fee of \$25.00 for a lifetime membership. Application for Lifetime Membership may be made at any registered shoot by filling out an application or by registering online at www.CNSCA.ca under "members".
2. In addition, the CNSCA assesses "Annual Dues", valid for the period January 1 to December 31 each year. These are currently \$20 but this amount can be changed from time to time by the Executive. Subject to approval by the Executive, a portion of these Annual Dues may be remitted back to a provincial organization provided that the province holds 3 qualifying registered shoots plus a provincial championship under the CNSCA and that the provincial organization is a legally registered society.

3. Any:

- (i) new shooting Shoot Promoter; or
- (ii) previously affiliated shooting Shoot Promoter that has come under new management; or
- (iii) a previously affiliated shooting Shoot Promoter which has not held a registered shoot advertised with the CNSCA for 10 years or more; which holds a registered CNSCA shoot shall be designated as a "new" Shoot Promoter and as such will be entitled to waive the Lifetime Membership and the Annual Dues for the current year to new CNSCA members at the "new" Shoot Promoter's first registered shoot. Existing CNSCA Members will not be entitled to free Annual Dues. Subsequent shoots at the "new" Shoot Promoter will not qualify for this incentive.

B. AFFILIATION

A Shoot Promoter becomes affiliated with CNSCA by advising the Executive that it wishes to do so. At this time there is no cost to become affiliated with CNSCA, however by affiliating, the Shoot Promoter agrees to abide by CNSCA rules and to promote CNSCA objectives.

C. TARGET FEES

The CNSCA currently assesses the Shoot Promoter holding a registered shoot a fee of \$0.04 per target (\$4 per 100 targets) based on the number of targets specified for that event; i.e. excluding viewing targets or extra targets due to target or machine malfunctions. The CNSCA currently returns \$0.02 per target to the provincial sporting clays organization in the province where the shoot was held provided the provincial organization is a legally registered society.

V - CLASSIFICATION

A. GENERAL

In order to allow shooters to compete with others with similar levels of skill, shooters are grouped into classes for purposes of CNSCA competitions. The metric used is the number of targets hit expressed as a percentage of the number of targets attempted. Scores achieved at CNSCA sanctioned shoots are "registered" with the CNSCA statistician who is responsible for maintaining a record of shooter scores and developing the necessary statistics.

B. CLASSIFICATION PROCEDURES

1. CNSCA uses 7 classes: MASTERS - AA - A - B - C - D - E.

The top 10% of the shooters are classified as Master. The other 90% of shooters are distributed equally into the six remaining classes AA thru E. See details below:

- b. A shooter who has shot registered targets in any clay target sport other than a sporting clays sport will be assigned into Class C or one class lower than their highest class attained in that clay target sport; whichever is greater.
8. The shooter is responsible for entering registered shoots in their assigned class based on the last posted average and class on the CNSCA website).
9. Reclassification for medical reasons shall be entertained on an individual basis by the CNSCA Board of Directors.
10. Classification Review - The Board of Directors, Shoot Promoter or shooter has the right to request a review of a shooter's record if it appears that the shooter is unfairly competing in a class other than their true level of ability. Upon review by a committee of three CNSCA members appointed by the CNSCA President, the shooter may be assigned a different class.

C. CONCURRENT CLASSES

1. A shooter's eligibility for concurrent classes which are based on age will be determined by their age on January 1 of the shooting year. CNSCA recognizes the following concurrent classes based on gender and age:

Lady

Sub-Junior: Ages 14 and under

Junior: Ages 15 to 18

Veteran: Ages 60 to 66

Super-Vet: Ages 67 and over

See Sec. VII. E, #9 and #10

VI. EQUIPMENT & SHOOTING COURSE

A. TARGETS

Targets thrown in any registered shoot may include any or all of the following:

1. Standard, mini, midi, battue, rocket, or rabbit targets.
2. Any other sporting clays target approved by CNSCA.
3. Target number and selection for any competition shall be at the discretion of the Shoot Officials. Target number and selection shall be the same for all shooters. It is recommended that 20% to 40% of targets for tournaments be specialty; i.e. non-standard.
4. Poison bird targets of a separate and clearly discernible appearance may be included with accompanying targets. A shooter breaking a poison bird target will lose any other "good" birds broken on that presentation attempt.

- At the beginning of a calendar year, all registered shooters are grouped into the following seven classifications.

Masters	Top 10%
AA	Next 15%
A	Next 15%
B	Next 15%
C	Next 15%
D	Next 15%
E	Remaining 15%

- For each of the classes, the shooters average score for the previous year will establish a threshold range for each class.

At the time of printing these rules, Jan 1, 2016, the class thresholds are as follows:

MASTERS	75.80% and above
AA	- 69.52 - 75.79
A	- 65.68 - 69.51
B	- 62.00 - 65.67
C	- 58.18 - 61.99
D	- 53.32 - 58.17
E	- 53.31 and below

- Shooters averages are calculated following each registered shoot and shooters will change classification if their new average puts them within a different threshold range. A shooters average is a rolling average based on starting the season by applying the last calendar years average to 400 targets then adding the current year targets and then re-averaging.
- Threshold ranges are re-calculated approximately July 1 of each year and prior to a major CNSCA event such as the Nationals. When new thresholds are established, the rules posted on the web site will be updated to reflect the new values. The values posted on the web site will note the date of the last change and will be taken as the correct values.
- A shooter who is assigned to a lower class may reject the class if the shooter wishes to remain in a higher class however the shooter must compete in that class or higher for the remainder of the year. To reject the assigned class, the shooter must contact a member of the board of directors.
- All new shooters will be assigned a class. To determine a shooter's assigned class:
 - A shooter who has never shot any registered CNSCA clay targets will be assigned a class by their current known ability, (as presented by CNSCA members familiar with the ability of the shooter), or Class C whichever is greater.

5. Launching devices which provide for targets traveling at various angles and distances to the competitors (i.e. wobble or oscillating traps) may not be used in registered tournaments.

B. SHOTGUNS

1. Shotguns of 12 gauge or smaller, in safe working order, and capable of firing two shots are to be used in attempting all targets. Registered shoots require that a maximum of two shells be loaded.
2. Shotguns fitted for multiple barrels (of various chokes and/or lengths) are permitted. The shooter is allowed to change barrels only before shooting the next station.
3. Shotguns with interchangeable or adjustable chokes are permitted at the shooter's discretion. Chokes shall be changed or adjusted only before shooting the next station.
4. Competitors may enter a shoot with various guns and attempt targets at various stations with different guns, or the gun of another competitor. Guns may be changed only before shooting the next station except in case of malfunction (section X-B-2)
5. Guns with release type triggers are allowed but must be clearly marked and shoot officials and squad participants notified of their presence. Safety stickers designating "release trigger" must be displayed on any gun so equipped.

C. AMMUNITION

1. All shot shell ammunition including reloads may normally be used. Shoot Officials may, however, require the ammunition to be commercially manufactured at any given shoot. The CNS-CA assumes no responsibility in connection with the use of ammunition.
2. Maximum loads for gauge specific events:

<u>Gauge</u>	<u>Ounce Lead (max.)</u>
12	1 1/8
20	7/8
28	3/4
.410	1/2

However any load up to 1 1/8 oz. may be used in any gauge during 12 gauge events.

3. Shot size shall not exceed U.S. #7 1/2 (diameter 0.095").
4. Shot shall be normal production spherical shot. Plated shot is permitted.

D. THE COURSE

1. The course will provide for a predetermined number of shooting stations from which each competitor will attempt various targets. The number of stations and the number and characteristics of targets from each station, on each course, will be determined by the Shoot Officials, and will be the same for all shooters. Changes in target trajectory, distance and/or velocity due to wind, rain, time of day or any other natural cause does not constitute a violation of this rule.
2. Targets will be propelled by, and launched from, any of a number of commercially produced, modified, or handmade devices.
3. Launching devices that provide for targets traveling at varying angles and distances to the competitors are not acceptable at a registered shoot (i.e. wobble traps). All targets in a registered shoot shall be presented with a reasonably consistent trajectory, distance and velocity to all shooters.
4. Devices propelling targets of more than one type, and devices capable of providing targets at varying angles and distances, shall be employed only as the varying aspects of these devices will be the same for all shooters and will be free of all human element selection.
5. The Shoot Promoter may appoint Referee(s) at (a) station(s) in such numbers and positions as the Shoot Promoter see fit to competently enforce all "rules for the shooter," as well as, to score the attempts accurately.

VII. GENERAL REGULATIONS FOR REGISTERED SHOTS

A. CONCURRENT EVENTS

1. These are events which are offered in concurrence with the seven (7) classes of shooters (MASTERS, AA, A, B, C, D, E) that allow the participating shooters to compete and receive prizes or awards in these separate events in addition to their class. These events are based on age (Sub-Junior, Junior, Veteran and Super-Vet) and/or gender (Lady).
2. All CNSCA Registered shoots must offer all Concurrent Events and offer some type of award.
3. At CNSCA Registered Shoots, only Ladies, Juniors and Sub-Juniors shall be eligible to win awards in all Classes and Concurrent Classes in which they qualify_ except at Championship Events (Provincial, Regional or National). At Championship Events, all shooters will be eligible for all prizes they qualify for.

B. CHEQUES - PAYMENTS - OVERPAYMENTS

1. Anyone who presents a cheque at any shoot that is returned for insufficient funds, or other causes, may not compete in any registered shoot until full payment, plus penalty, has been made to the individual or Shoot Promoter to which it was presented. Any Shoot Promoter receiving such a cheque shall report the name and address of the shooter to the CNSCA identifying the person issuing the cheque.
2. Any competitor at a registered shoot who, through error, has been overpaid on any purse, added money, optional or other prize money and who is notified of the overpayment by registered mail, must return the overpayment by registered mail within fifteen days. Failure to do so shall result in that shooter being barred from all registered shoots until repayment is made.

C. SHOOT PROMOTER QUALIFICATIONS & RESPONSIBILITIES

Only those Shoot Promoters affiliated with CNSCA are eligible to host CNSCA registered shoots.

2. It shall be the responsibility of the Shoot Promoter to see that each shoot is conducted in accordance with the official rules of the CNSCA.
3. Shoot Officials are responsible for ensuring that competitors are not allowed to test or preview the course prior to the competition.
4. The Shoot Promoter shall check the CNSCA membership of each shooter before accepting their entry and shall be responsible for the dues if they allow a participant to shoot in either Class or Concurrents when that participant is not a CNSCA member or has not paid their Annual Dues.
5. Except when participating in Hunter Class, all individual shooters in all registered shoots must be members in good standing with the CNSCA. IT SHALL BE THE RESPONSIBILITY OF THE SHOOT PROMOTER HOLDING A REGISTERED SHOOT TO CHECK THE MEMBERS LIST, PROVIDED BY THE CNSCA, OF ALL PARTICIPANTS AND ENFORCE THIS RULE.
6. The Shoot Promoter will be billed by CNSCA in all cases where non-members are allowed to shoot in either Class or Concurrent. The Shoot Promoter may seek reimbursement from the non-member shooters, but must first abide by VII-C-4 and VII-C-5 above.
7. The Shoot Promoter shall check the shooter's classification on the current Shoot Sheet to ascertain the proper classification for the event.

8. A maximum of 200 registered targets may be shot on one course in a single day without a change of target presentation.
9. In the event of extreme weather conditions, power failure, trap failure, or unusually early darkness, the Shoot Promoter may elect to continue the event some other time (i.e. the next morning or the following weekend) but must immediately notify CNSCA, with a full explanation, who will sanction the change, provided it is deemed in the best interest of sporting clays.

D. SHOOT OFFS

1. In all registered CNSCA tournaments, all ties shall be shot off unless otherwise specified by the Shoot Promoter.
2. When a shoot off is conducted to break a tie, the Shoot Officials will set the shoot off course and will advise all participants in the shoot off how the shoot off will proceed. When all participants in the shoot off understand the shoot off procedure and agree to its format then the shoot off will proceed. Shooting order will be determined by a lottery draw or coin toss among the shoot off participants.
3. Targets are to be set as pairs and will be crossing, one left to right and one right to left. A minimum of five pairs to be attempted.

E. SHOOTER RESPONSIBILITIES & CONDUCT

1. Each member will be furnished a copy of these Official CNSCA rules by mail and/or on the CNSCA web site, with the understanding that the member will read and understand each rule. Members are strongly encouraged to know these rules and abide by them, both for their own benefit and for the benefit of other shooters and safety. By entering the competition, every person agrees to accept all official decisions and to abide by these rules.
2. It will be the responsibility of each shooter to be familiar with these rules. Ignorance of the rules will not be a cause to "re-attempt" targets lost because of rule violations.
3. It is the sole responsibility of the shooter to begin any event, station, and/or field with sufficient equipment, including safety equipment and ammunition. Failure to do so, which in the opinion of the Shoot Officials will delay the shoot, will result in the loss of all targets as required to keep the shoot moving. Make up targets will be provided only at the discretion of the Shoot Official(s).
4. The CNSCA has approved the "free gun mount" rule. This rule allows the shooter to start with a low gun or a pre-mounted gun when calling for a target.

5. Failure to accurately record scores or the falsification of scores, can lead to suspension from the CNSCA.
6. Pets are not allowed on the course while a shoot is in progress.
7. Coaching of an individual in the station during a registered shoot is not permitted.
8. It shall be the sole responsibility of the shooters to see that they are entered into all the events desired. The official cashier sheet/entry form must be used. Once entered, clerical errors are the responsibility of the Shoot Promoter.
9. It shall be the shooter's responsibility to enter an event in the proper class.
10. A Sub-Junior, Junior, Lady, Veteran or Super-Vet shooter will shoot in their appointed class and their appropriate concurrent class. These concurrent classes will be available at all registered tournaments.
11. A shooter who shoots in a lower class than the one in which the record places them shall forfeit any winnings earned while shooting in the wrong class for the first offense, and for the second offense shall forfeit all winnings and also be barred from registered competition for one year.
12. A shooter who enters, or allows themselves to be entered into an event in a class lower than the class in which the shooter was entitled to shoot forfeits all rights to any trophies or purses they would have earned shooting in the proper class unless the mistake is corrected prior to the distribution of such trophies or purse money.
13. A shooter accepting trophies or money by shooting in a lower class than the one in which they were entitled to shoot must return their winnings within 15 days after notification by CNS-CA. Failure to comply within this 15-day period shall subject the shooter to suspension as a CNSCA member and PERMANENT disbarment from registered competition.
14. It is the responsibility of the shooter to ensure that the safety is off and the gun is properly loaded with unfired shells of proper size (and load) before calling for a target otherwise the target/s will be scored as "lost".

F. RESIDENCY REQUIREMENTS for PROVINCIAL, REGIONAL AND NATIONAL CHAMPIONSHIPS

1. An individual must be a bona fide resident (permanent abode) of the province, region or country to be eligible for provincial, regional or national championships or to shoot as a provincial or national team member. Where Residency is in question, a Health Care Card shall be the only acceptable proof.

2. A resident shooter must have shot a minimum of 300 CNSCA registered targets in the current year prior to the Provincial, Regional or National Tournament to qualify for awards, moneys or prizes at the Provincial, Regional or National Tournament. A resident shooter who does not qualify by this criteria will be entered into "Masters" class and may only qualify for awards, moneys, or prizes in that class.
3. A prize for out of province shooters may be offered by the Shoot Promoter.

G. PROVINCIAL and CANADIAN ALL STAR CRITERIA

To have attempted a minimum of 700 registered targets in any combination at a minimum of two different clubs.

H. DISQUALIFICATION AND EXPULSION

1. With the concurrence of at least two members of the CNSCA Executive, the Shoot Promoter shall upon proper evidence:
 - a. Disqualify any shooter for the remainder of the shoot program for violation of gun safety precautions that endanger the safety of shooters, field personnel and/or spectators.
 - b. Elect to refuse the entry or cause the withdrawal of any contestant whose conduct in the opinion of the Shoot Promoter is unsportsmanlike or whose participation is in any way detrimental to the best interests of the shoot.
 - c. Disqualify any shooter from a shoot for misrepresentation of their status under the eligibility rules (SANDBAGGING).
 - d. Expel any shooter assaulting or using abusive language to a Referee, Shoot Official, Shoot Promoter, Score Keeper, shoot volunteer or other shooter upon sufficient evidence presented by the Chief Referee.
2. The Shoot Promoter shall report to the CNSCA all cases of disqualification and expulsion and the reasons for it. Subsequent action by the Board of Directors could result in the shooter being expelled and barred from further membership in the CNSCA, after the shooter has had the opportunity to appear before the Board of Directors and present their case.

I. OFFICIAL SCORES

1. All scores or records, to be recognized as official, must be shot under the official CNSCA rules.
2. Only the scores shot on scheduled dates, approved by CNSCA, shall be registered. Scores made in shoot off's shall not be registered, however, all CNSCA rules shall apply in shoot off's.

3. The scores of any Active Shooter who takes part in a registered shoot shall be considered official, and shall be registered with the CNSCA even though the shooter had given notice that it was not their intention to have the score recorded. Medical exceptions may be made to this rule if the shooter obtains the exemption prior to the shoot. The medical exemption may be obtained by contacting a CNSCA Board member.
4. When a contestant stops or withdraws from an event without just cause in which they have started, or is disqualified by the Shoot Promoter, their partial score shall be reported to the CNSCA along with the other scores of the event, based on the total number of targets in the event. Targets not attempted shall be scored as lost however the competitor's class will not change as a result of this. Whatever class they had will be entered as a Declared Class.
5. If a competitor withdraws as the result of sickness or injury, the shooter withdrawing shall be scored with the targets actually fired upon in reporting their score.

J. REGISTERED SHOOT REPORTS

1. Reporting Requirements. It is the duty of each Shoot Promoter holding a registered shoot to fulfill the following obligations.
 - a. Payments and reports must be mailed to the CNSCA, post-marked no more than seven days after the last day of the shoot.
 - b. Make payments of all money, purse and options to the shooters.
2. Penalties. Failure to fulfill the reporting requirements shall carry the following penalties:
 - a. Cancellation of all subsequent shoot dates for the offending Shoot Promoter.
 - b. Denial of right to apply or reapply for any further registered shoot dates for a period of thirty (30) days in case of first offense, or ninety (90) days in case of second or subsequent offense or until obligations have been met.
 - c. Officers of any delinquent Shoot Promoter shall be barred from shooting registered targets until all required obligations of said Shoot Promoter are met to the shooters and to CNSCA.
3. A financial report, CNSCA dues collected, remittance and original copies of registration form for all CNSCA memberships sold at a registered shoot must be forwarded to the CNSCA immediately following each shoot. Membership applications must be completely and legibly filled out with name and address of the new member.

4. Shoot Report. An individual entry form/cashier sheet must be submitted on every shooter. These individual reports must include:
 - a. Member's full name
 - b. Number of targets shot at
 - c. Number of targets broken
 - d. Class in which member was entered
 - e. Awards won.
5. Shoot Promoters are required to retain copies of scoreboard and/or shoot score sheets on file for 90 days after the end of the shooting year.

K. PRE-SHOOTING A COURSE

Pre-shooting of all or any portion of a course set for a registered shoot is not permitted. Any shooter who pre-shoots all or any part of the course set for a registered shoot may shoot in the event but will not be eligible for prizes and will not have their score recorded.

VIII. CONDUCT OF THE SHOOT

A. SHOOTING ORDER

1. Squadding:- At the discretion of the Shoot Promoter, groups of maximum of 5 shooters will be formed to proceed from station to station in a fixed sequence.

NOTE: SQUADDING AT PROVINCIALS, REGIONAL OR NATIONAL TOURNAMENTS. Squads of participants in the various Provincial, Regional or National Shoots will be determined on a random basis by the Shoot Promoter. Pre-set squads are not permitted at Provincial, Regional or National championships.

2. When practical, squads will each be assigned a different shooting station and shooting will commence with a "shotgun start". When this is not practical, squads will be assigned a start time and it is the responsibility of each shooter to be ready on time, or within no more than 5 minutes of that time.
3. Shots not attempted by the shooter joining their squad after they have begun will be scored as "lost." The Shoot Officials shall have the right to provide for makeup targets if sufficient justification can be presented. Make up targets are provided solely at the discretion of the Shoot Officials.
4. Rotation of Order. In squads of shooters, rotation of shooting order is permitted between stations. Rotation may be formatted by Shoot Officials, to be followed by all squads. If not prescribed by Shoot Officials, order will be determined by the shooters.

5. Shooters Viewing Targets: For Single, Following Pair and Report Pair presentations, only one clear set of 'View Targets' shall be presented in normal circumstances. For True Pair presentations, two viewing pairs may be presented if necessary for the shooter to be afforded the opportunity to clearly see the viewing targets. Only the first shooter is permitted to view these targets while in the stand.
6. Any viewing target shot at will count towards the shooter's targets for that station.
7. All CNSCA sanctioned shoots will advertise an opening and closing time for registration. Individuals registering for the shoot after the closing time will be allowed to participate in the tournament, after paying the regular entry fee, but will not be eligible for awards, prizes or moneys. It is the responsibility of the individual shooter to be on time for registration.

B. ATTEMPTING TARGETS

Targets will be presented for attempt at each station in one or more of the following formats.

1. Single Target/Two Shots:- unless otherwise specified. The target will be scored "hit" or "dead" if successfully attempted on either shot.
2. Pairs/Two Shots: Pairs may be presented as report, following, or simultaneous. In simultaneous pairs the shooter has the right to shoot either of the targets first. If the shooter has missed the first target he/she may fire the second cartridge at the same target. When shooting report or following pairs, the shooter will have the right if missing the first target to fire the second cartridge at the same target (the result being scored on the second target and the first target being scored as lost). Should the shooter break both targets with either the first or the second shot then the result will be scored as two "dead" target.
3. In the event the shooter does not attempt the first target of a Report Pair, the first target will be recorded as lost. The shooter is still required to fire one of the shells in their gun to launch the second target.
4. Multiple Target/Two Shots:- Two hits or dead birds maximum.
5. Timed Reloads. Targets presented with set time periods for the shooter to reload prior to the presentation of the subsequent targets are permitted. Five seconds is the normal reload time but other intervals may be used at the discretion of the Shoot Official(s).

6. The normal call for the targets is "pull" at which time the target is immediately released or delayed up to 3 seconds. However, where a delay is introduced, it shall be the same for all shooters and must be clearly indicated at the shooting station that a delay is in use.

IX. SCORING

A. Targets shall be scored as "hit" or "dead" and designated on score cards by an (X) when in the opinion of the Score Keeper, a visible piece has been broken from the target. Targets not struck and broken by the shooters shot shall be called "lost" or "missed" and designated on score cards by a (O).

B. The call of "lost" or "dead," "hit" or "miss" shall be announced by the Score Keeper prior to recording the score on every target.

C. Scoring Pairs - In the event of a "no bird" on any Simultaneous or Following Pair, nothing can be established. Two good targets must be presented to record the score. This will also apply for gun/ammo malfunctions while shooting pairs.

D. If the shooter disagrees with the Score Keeper's call, the contestant must protest before firing at another set of targets or before leaving that station. The Score Keeper may poll the spectators and may reverse the original call. In all cases the final decision of the Score Keeper will stand.

E. Each shooter will be assigned a scorecard to be presented to the Score Keeper, if used, at the various stations or fields. The Score Keeper will score each shooter's attempts on the individual's scorecard. The total shall be tallied and returned to the Shoot Promoter as soon as practicable on completion of the Shoot.

F. Each shooter is responsible for their scorecard from assignment at the start of the shoot, until the card is returned to the Shoot Promoter at the end of each round.

G. Shooters are responsible for checking the Score Keeper's totals of "hits and misses" at each station and/or field.

H. During a registered event, each shooter must verify their score before leaving the station. Once the shooter has left the station, the score will be considered final.

X. MALFUNCTIONS

A. TOTAL DAILY GUN & AMMO MANFUNCTIONS

The shooter shall be allowed a combined total of three malfunctions

per day attributed to either the shooter's gun or ammo. Targets not attempted due to the fourth or further malfunctions shall be scored as "lost." Targets not attempted on the three allowed malfunctions shall be treated as "no birds."

B. GUN MALFUNCTIONS

1. In the case of a gun malfunction, the shooter must remain in place, the gun pointed safely down range and must not open the gun or tamper with trigger, safety or barrel selector, until the cause has been determined to the squad's satisfaction and a ruling made.
2. In the case of a broken gun, the shooter has the option to use another gun, if one is available, or he/she may drop out of competition until the gun is repaired. The shooter must however finish the event during the allotted schedule shooting time.
3. Targets shall be scored as "lost" if the shooter is unable to fire because of the following. Examples include but are not limited to:
 - a. Shooter has left the safety on.
 - b. Shooter has forgotten to load or properly cock the gun.
 - c. Shooter has forgotten to disengage the locking device from the magazine of a semi-automatic weapon.
 - d. Shooter has not sufficiently released the trigger of a single trigger gun having fired the first shot.
4. If the shooter fails to comply with item X-B-1, the target or targets will be scored as "lost" or "missed."

C. AMMO MALFUNCTIONS

1. In the case of ammunition malfunction, the shooter must remain in place, the gun pointing safely down range and must not open the gun or tamper with the trigger, safety or barrel selector, until the cause has been determined to the squad's satisfaction and a ruling made.
2. Examples include, but are not limited to:
 - a. Failure to fire, providing firing pin indentation is clearly noticeable.
 - b. One in which the primer fires, but through failure of the shell or lack of components, and which, consequently leaves part of or all of the charge of shot or wad in the gun. A soft load, in which the shot and wad leave the barrel, is not a misfire.
 - c. Brass pulling off of the hull between shots on pairs.
 - d. Brass separating from the casing when the gun is fired (usually accompanied by a "whistling" sound as the plastic leaves the barrel).

3. If the shooter fails to comply with item X-C-1, the target or targets will be scored as "lost" or "missed."

D. TARGET MALFUNCTION

1. A target that breaks at launching or on its flight path, prior to being fired upon, shall be called a "no bird" and the shooter will be provided a new target.
2. A target that is launched in an obviously different trajectory shall be called a "no bird" and the shooter will be provided a new target.
3. If a bad target or "no bird" is thrown during a timed reload sequence, the entire sequence will be considered a "no bird" and the entire sequence will be repeated.
4. At a station of True Pairs or Following Pairs, two good targets must be presented or a "no bird" will be called and the presentation will be attempted again. Targets shall be shot as "fair pair in the air," if not, two new shots will be attempted and scored, no scores from previous "no bird" attempts will stand. The shooter has the option of firing one shot at each target or both shots at either the first or second target.
5. In the case of 'Report Pairs', where the first target is a good (fair) target and the second target is not a good target for whatever reason, the first target shall be ruled as an established hit or miss and the shooter shall be presented with another pair of targets. The shooter must again attempt the first target but only the second target shall be scored on this presentation.
6. If a station becomes unshootable during a registered shoot for any reason deemed by the shoot officials, then all contestants shall be awarded hits for all targets that were to be presented at that station.

XI. PROTESTS

A. A shooter may protest if in his/her opinion the rules as stated herein are improperly applied.

B. There will be no protests concerning calls or scoring of hits or misses. The Score Keeper's final decision will stand.

C. Protests shall be made immediately upon completion of the shooting at a given station to the Referee if present, otherwise shall be recorded on the score card and brought to the attention of the Shoot Promoter.

D. The Shoot Promoter shall convene a "jury" of 3-5 CNSCA members who are known to be representative of the shooters present and knowledgeable about these rules. They shall decide on the validity of the protest and the resolution of the case.

FITASC FUNDAMENTALS

Let me explain my take on FITASC—and I apologize to all the purists right up front—but I am going to try to leave out the finer details and just explain the game in under 2 pages. If you know the game better then by all means, feel free to correct me publicly—it just means people are talking about and learning about FITASC.

THE PARCOUR— You go out to a field. They call that a “parcour” where you will shoot a total of 25 targets.

On this field there will be 5 clay throwers that are clearly signed A B C D and E

2 easy

2 medium

1 hard

THE PEG— There will be three places to shoot from. These are called “pegs”.

At each peg, the shooting position is inside a (hoola) hoop. Once you step in the hoop, you **MUST NOT** step out or touch the hoop until you are finished shooting.

(cont'd on pg 37)

BEAVERHILL SPORTING CLAYS

PRIVATELY OWNED AND OPERATED – MEMBERSHIP BASED

25 Station Sporting Clays Course

5 Stand

Skeet Field & Wobble Trap

Membership Has Its Advantages

- Open 7 days a week without Appointment
- Full Course from May to October
- Winter Course November to April (Must be Winter Gun-11)
- Membership includes 1000 Targets
- Members may bring guests (some restrictions apply)

Non-members welcome by Pre-arranged Appointment

- 48-72 hours in advance recommended
- Appointments available May to September
- PAL Required

- Corporate Events & Team Building
- Sporting Clays Tournaments
- Bachelor & Bachelorette Events
- Special Events & Small Groups
- Meeting & Entertaining Clients
- Training Sessions & Workshops
- Catering Upon Request

2019 Events

League April to September

- May 4/19 Ducks Unlimited
- May 11/19 Edmonton Oilmen's
- June 1/19 Delta Waterfowl
- August 10/19 Alberta Provincials
- August 15/19 ACA Report-A-Poacher
- August 17/19 Buddy Shoot
- September 7/19 Edmonton Oilmen's
- September 28/19 Fall Classic

FITASC FUNDAMENTAS (cont'd from pg 35)

As said earlier you will shoot 25 targets at the parcours.

At Peg 1 shoot 8 targets: 4 singles then 2 doubles

At Peg 2 shoot 8 targets: 4 singles then 2 doubles

At Peg 3 shoot 9 targets: 5 singles then 2 doubles

At **Peg 1** your squad of 6 will line up and each will **shoot 4 singles** in turn from the 5 throwers. You can take two shots at each single.

When all shooters have shot the 4 singles, the second shooter that just did the singles will start the squad as “first shooter up” to **shoot 2 different pairs**. One attempt at each pair.

You will **do the same at the second and third pegs** with the next guy in line being “first up”. Trust me on this—those 5 targets look a LOT different from each peg.

In total you will have shot 13 singles (remember you can take 2 shots) and 6 pairs for a total of 25 targets.

An interesting thing to know: Recall earlier I said there were 2 easy, 2 medium and 1 hard? **True pairs must use at least one of the easy targets.**

That's it. FITASC in 2 easy pages.

Read on if you want to hear more.

(cont'd on pg 39)

We've Got You Covered

FITASC FUNDAMENTAS (cont'd from pg 37)

There are a lot of other “finer detail” rules I could explain but above is all you need to know. The other shooters or the ref will always be happy to educate you as you go. Or you could always download the FITASC rules from their website.

So why is FITASC being mentioned so much? FITASC is an International body that governs the sport. It is recognized as an authority on competitive shooting.

CNSCA members are able to compete on an international level at FITASC competitions and will be recognized as representing Canada.

PEOPLE SAY FITASC IS HARDER

Here's how its harder: You don't get to attempt the same pair twice. You either know how to shoot the targets or you don't. In Sporting Clays, you will shoot 3 or 4 pairs at each station; giving you a chance to “figure out it needs more lead”. (never done that?)

Don't forget—you shoot at all the singles before you shoot those targets as pairs. And you get 2 shots at each single. That is your chance to figure out the target for the pairs presentation.

From that angle, it's really no different than 5-stand.

(cont'd on pg 41)

FITASC FUNDAMENTAS (cont'd from pg 39)

FITASC is an interesting game. And I enjoy the subtle difference from Sporting Clays.

I would really enjoy an event with 100 Sporting Clays in the morning and 50 FITASC in the afternoon. Sounds like a nice day—occasionally. Especially if it can get me home a little earlier.

Sometimes 200 in one day can make for a long day. Some may beg to differ but most of “those guys” would have probably stuck around to shoot another round of practice after 200 anyway! And they probably don’t have as far to go to get home.

By the way, FITASC specifically refers to what we know as “Sporting Clays” as “English Sporting Clays”. If you are at an International event where FITASC is being held, you may see “English Sporting Clays” as one of the events—they just mean Sporting Clays.

Because the CNSCA holds the FITASC license for Canada, I, for one, would like to see FITASC opportunities at some of the CNSCA events.

Did you know that the 2020 World FITASC Championship is being held in Mississippi? I wonder who will be representing Canada.

Bill Campbell, CNSCA Secretary

The CNSCA Grand Slam

We've all heard Sporting Clays compared to golf. And in the 2013 Shoot Book I reviewed an article that compared Sporting Clays with baseball. But tennis? Yes, tennis – especially with respect to ranking and classification. Allow me to explain.

In 2014, the CNSCA decided to start registering both 5-Stand and FITASC targets. All three disciplines now factor into each shooter's average; and subsequently their class. Now many would argue that FITASC and 5-Stand are different games than Sporting Clays as we know it. However, in each discipline:

- 1) The same approved clay targets are used
- 2) Those targets can be launched at any trajectory at any velocity at any reasonable distance
- 3) Those targets can be launched as singles, report pairs, following pairs or true pairs
- 4) Those targets are shot at from a designated stand or position and
- 5) When you move to another position, you shoot different targets

Based on these five commonalities, the essence of the game is the same in all three disciplines.

Using the tennis analogy to compare, the game of tennis can also be divided into three different “disciplines”; based on the surface the game is played on: grass, asphalt or clay.

The essence of the game is the same on all three surfaces but you can be sure that the athletes that compete in this sport will tell you that the game is entirely different on each surface.

The ranking system used in Tennis doesn't differentiate between the surfaces when taking into account a player's wins. A win on asphalt, grass and clay is all the same when it comes to the final ranking of each player.

Similarly the CNSCA registers the scores from the 3 similar clay shooting disciplines: Sporting, 5-Stand and FITASC and will continue to use your average from all disciplines to determine class.

Tennis does, however, recognize a "Grand Slam Champion" when a competitor excels in all disciplines.

The CNSCA will calculate a "Grand Slam Score" based on the average of the shooter's best performance in each discipline.

The Grand Slam Score will determine a "Grand Slam Champion"

Unfortunately there were no registered FITASC targets last year and I am sad to say there will be no 2018 Grand Slam Champion.

Please encourage your local clubs to offer registered 5-Stand and FITASC opportunities along with Sporting whenever possible.

Here is the last Grand Slam Champions List

Rank	First Name	Last Name	Best 5-stand	Best FITASC	Best Sporting	Grand Slam Score
1	Alexander	Aric	93.0%	94.0%	97.0%	94.7%

RAPID FIRE!!

A Collection of Shooter Profiles

Another installment of **Rapid Fire!!** Hopefully you will get a quick glimpse into some of the shooting styles and backgrounds of some of the top shooters that you see so frequently at so many of the shoots. Rapid Fire returns this year so let me introduce you to the 6 new shooters that were selected this year and why. This year's selection (in no particular order) was based on the last question from previous RAPID FIRE!! (Who's "Rapid Fire" profile would you like to see).

Shane Livingstone. Shane normally shoots out of Carstairs, AB. But has been shooting in Australia for some time now. We all hope to see Shane back soon. In case you don't know who Shane is, he is the Master class shooter that kicks ass one-handed. Shane lost an arm in an accident many years ago and now has a prosthetic arm (hook) but that didn't stop him—or even slow him down from becoming one of the best shooters out there.

Tim Putnam. Tim shoots out of Manitoba and this year's top ranked shooter in Manitoba. Tim has held positions on the Provincial and National Skeet shooting teams for several years and is a Level 2 shotgun instructor.

Clint Larivere: Clint, an avid upland and waterfowl hunter, shoots out of Central AB and has his fair share of HOA pins. Clint has shot all over Western Canada for several years and also was a competitor at the 2014 ICTSF World Championship in Ontario.

Candis Endresen. Candis shoots out of Grande Prairie, AB. She is also actively involved with every part of the organization of every shoot you attend at Grande Prairie. From helping to set the course to arranging food and everything in between. Candis also helps the CNSCA with promotional items. I highly recommend her :)

Ron Nemecek. Ron shoots out of Golden, BC. Ron is also the current Vice_President of the CNSCA as well as the President of the BCSCA as well as the President of the Golden Gun Club. Ron has been actively involved with Sporting Clays and various organizations to promote the sport for several years and the sport owes a lot to Ron.

Bev Reynolds. Bev shoots out of Lethbridge, AB. Bev has been improving steadily over the last few years. Her presence at events brightens every situation. It certainly doesn't hurt that she brings her beautiful pup Aurora with her to most events. Fun fact about Bev that I found fascinating—she operated the BIG cranes for many years and was an accredited operator that reached some industry designation that only a small handful of people reach.

The next page will show you the answers to the “21 questions” we asked these six shooters.

What Do You Get From the CNSCA ?

As members of the CNSCA you should know how YOUR money is being spent in order to understand what you get from the CNSCA.

Let's start with the basics – what most of you probably know. The website.

It's a central place for shooters to find out about places to shoot clays in Canada – recreational and "registered".

Registered just means that those targets (your score) are being sent to the CNSCA to process and update shooter records – they count towards your rolling average and therefore your Class.

The website maintains a list of places in the Clubs section. We add to that list whenever anyone sends us a note about a new one so you should check there every now and again.

The Website also provides a calendar of events across Canada of all types; fun, charity and registered.

The website also allows for online registration of events (which I ask that you all use for every registered shoot).

What Do You Get From the CNSCA ? (cont'd from pg 88)

We also update the content as frequently as we can, given that all this website maintenance is being done by volunteers. The on-going work to collect scores and enter them into the system falls into this category.

Another thing you probably know but never really thought about ... the day-to-day administration. I won't bore you with the details but if you would like, the details are available on our yearly financial statement we make available at the AGM each year. There are International memberships with ICTSF and FITASC; and there is insurance for the association; and there are bank fees; and there are medals to purchase; and postage fees; and etc etc.

Plus the CNSCA will provide sponsorship to various events such as ladies and juniors learn-to-shoot offerings.

Here's a BIG ONE - one I'm not sure if you know. Did you know that half of all target fees collected and half of all annual renewals is sent to your provincial associations? That's HUGE.

The BCSCA, ASCA, SSCA and the MSCA all see half of all your "registered" fees go back to the provincial association that helped contribute to that pot in the first place. Those Provincial Associations can then direct that money to promoting the sport in their province.

The CNSCA works directly with the clubs hosting regional and national championships to promote the event and assists in finding sponsorship for the event. National Championships have always received sponsorship from the CNSCA and this year's National Championship being held at the Lake Windermere Rod and Gun Club in Radium Hotsprings, BC over the Labour Day weekend will be no exception.

The CNSCA also publishes an annual booklet. This hard copy "Shoot Book" requires a lot of volunteer effort to continue to provide a signature piece. But it also comes with significant costs that the CNSCA does its best to manage. Many carry this book in their glove box and/or shoot bags each year. And some of us keep a copy of every booklet ever printed in a library. As much as we move to the digital world, I think this annual booklet publication is worth its weight in gold.

I am sure that this news will be public knowledge by the time you read it. The CNSCA Board recently approved a motion to allocate up to \$10,000 to send a team to compete, representing Canada, at the World FITASC Championship in 2020 to coincide with the CNSCA's 10th Anniversary.

We don't know at this point if we will be able to send a team to future World Championship Events – or if we will be able to establish an annual team.

What Do You Get From the CNSCA ? (cont'd from pg 93)

But hopefully, growth in the organization will produce growth in the financial capabilities of this association.

Hey, let's get real, if we grow our shooter base enough, we would generate the revenue to be able to maintain sponsorship of a National team for International events. How cool would that be? You get to be part of that. And anyone could one day hope to BE ON that team. How cool is that?

I am sure I could come up with many more examples of value for the money you invest with the CNSCA as active members and even as occasional shooters that simply want to track their average.

But why bother. Read back up this list and say out loud which of the above examples you would like to see the CNSCA stop spending your money on. And then think about

how great it is to be a part of the CNSCA
